We are now processing all employment verification requests electronically. To make a request, please go to the website below and complete the sign up form.

https://dashboard.tenstreet.com/company_signup

After you sign up, you will receive an email with a username, password and instructions about how to get started.

If you are a 3rd party vendor, please sign up with your corporate name and list which of your clients you are verifying on behalf of (ex. Tenstreet on behalf of Sam's Trucking)

If you are already a Tenstreet client, the request method will automatically default to "network" (instead of fax, phone, etc.), please do not change it.

Please note, if a driver worked for JVT multiple times, a request will have to be submitted for each time period.

If a driver's signed release was faxed the copy will be kept on file; therefore, another copy is not necessary.

Thank you!
